**USAGE**

The lamp is used for the illumination of stationary control cabinets and electrical enclosures.

**SAFETY GUIDELINES**

- Installation must only be carried out by qualified electrical technicians in observation of the respective national power supply guidelines (IEC 60364).
- The safety measures according to VDE 0100 have to be ensured.
- Lamps with magnetic fixings need to be checked to ensure that the holding power of the magnets is sufficient for the respective application including the connection cable.
- The lamps must be mounted stationary.
- With the magnet fixing the lamp can be flexibly mounted inside the electrical enclosure.
- The technical specifications on the type plate must be strictly observed.
- The device must not be opened for repair.
- The lamp must not be used as a hand light.

**WARNING**

There is a risk of personal injury and equipment damage if the connection values are not observed or polarity is incorrect.
