## INSTALLATION INSTRUCTIONS

1. Install (4) channel nuts (item 2) into channels provided on the right and left side of enclosure.
2. Attach the panel supports (item 3) to the channels as shown, using screws (item 4) to secure the panel supports to the enclosure.
3. Adjust the panel supports to the desired height and tighten screws securely.
4. Install optional subplate (item 6) and individual panel supports (item 5) as shown.
