

# Customized Standard Enclosures (CSE)

Saginaw Control & Engineering can customize any standard enclosure selected from our catalog, reducing the turnaround time from design to delivery. Let Saginaw Control & Engineering do the work for you to save you time and money!

## Services Include:

- Precision cutting of all holes and cutouts prior to powder coating – **Resulting in a high quality powder coat finish on the edges of cutouts!**
- Selection of materials required for the environment or specification – carbon steel, galvanized steel, 304 or 316 stainless steel.
- Powder coat finish in your choice of color – Choose from one of our RAL standard powder coat finish colors to provide the most cost effective solution.
- Manufactured to meet industry standards and maintain environmental rating required for your application, Type 1, 3R, 4, 4X or 12.
- Manufactured to the highest quality standards.

## How to Order:

1. Select an enclosure from our catalog and download the drawing using the "Product Lines" section of our website.
2. Add the holes and cutouts necessary for your application, and note powder coat color, if required.
3. Submit the drawing and release quantity details electronically to Saginaw Control & Engineering at [CSE@SaginawControl.com](mailto:CSE@SaginawControl.com).
4. Receive a quote from SCE – RFQ's are typically turned around in under 24 hours.
5. Place an order – Send in Purchase Order indicating quantity, powder coat finish color, if required, and quote number. You'll receive an order confirmation back from SCE including our shipping date.
6. Shipment of your specific modified enclosure in 3 weeks, with a 3-year average of >99% on time shipping based on delivery date indicated on order confirmation.
